## RAZOR CUT PLUS

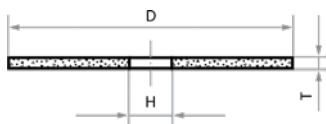

# FOR FAST, COOL AND PRECISE CUTS: CONTROLLED CUTTING WITH THE RAZOR CUT PLUS

This cutting disc is perfectly suited for cutting a wide range of stainless steel and steel materials.

For fast, cool and precise cuts at a high cutting speed combined with a low cutting temperature and maximum tool life thanks to the innovative bonding technology.

This cutting disc is energetically optimised for use with various types of angle grinders (including the cordless angle grinders). Two layers of strong glass-fibre fabric ensure a high degree of safety and lateral stability.

Quantity-optimised packaging for retail and industry: this cutting disc is packed with 5 discs in shrink-wrapping, a box includes 20 discs in total.
