**NEXT LEVEL SUPPORT.**

EFFICIENCY ■ SALES ■ CUSTOMER LOYALTY

## FOREWORD

Digitalisation has changed the way we see the world. In business, this has led to a fundamental change in the relationship between customers, dealers and manufacturers.

As competition becomes ever more intense, those who learn to adapt to market developments and benefit from them will be successful. For us in the B2B sector, the main question is how to offer customers added value and benefit.

LUKAS can help you find the right answers! Ever since we first started business, we have constantly been looking for solutions that go beyond the product and that help make both dealers and end users more successful. We call these NEXT LEVEL SOLUTIONS.

This brochure contains information on the following:

- LUKAS Standard 360° data package for greater efficiency, sales and customer loyalty
- How to create value by focusing on the transfer of knowledge, with practical training for dealers and customers
- How specialist retail ranges can deliver better product variety and availability

We look forward to creating a successful future with you!

Olaf Heimann  
(Managing Director)

**“LUKAS UNDERSTANDS WHAT DEALERS NEED TO PRESENT PRODUCTS IN A WAY THAT APPEALS TO CUSTOMERS.”**

(D. Marold, REIDL GMBH & CO. KG)

TAKE THE FUTURE INTO YOUR HANDS TODAY

## LUKAS at the cutting edge of a global industry

As one of the technological leaders in the market for grinding, milling, cutting and polishing systems, LUKAS specialises in the production and sale of tools, machinery and accessories, as well as expert consulting.

All of the products that we make and sell offer outstanding quality. Powerful, durable and extremely ergonomic, they help deliver excellent results in a variety of high-precision processes.

We aim to combine quality and reliability with the answers to the questions of the future. That is why we always look out for the latest technologies and developments from a range of industries. This focus gave us the lead early on in the market and still does to this day.

We are internationally active, with branches and representatives in Europe, America, Asia, Africa and Oceania. With over 80 years of experience, we produce system solutions for industries ranging from automotive, aerospace and energy to construction and tradespeople.

# THE LUKAS STANDARD 360° DATA PACKAGE

BOOST EFFICIENCY, SALES AND CUSTOMER LOYALTY WITH  
COMPREHENSIVE TOOL AND PRODUCT DATA

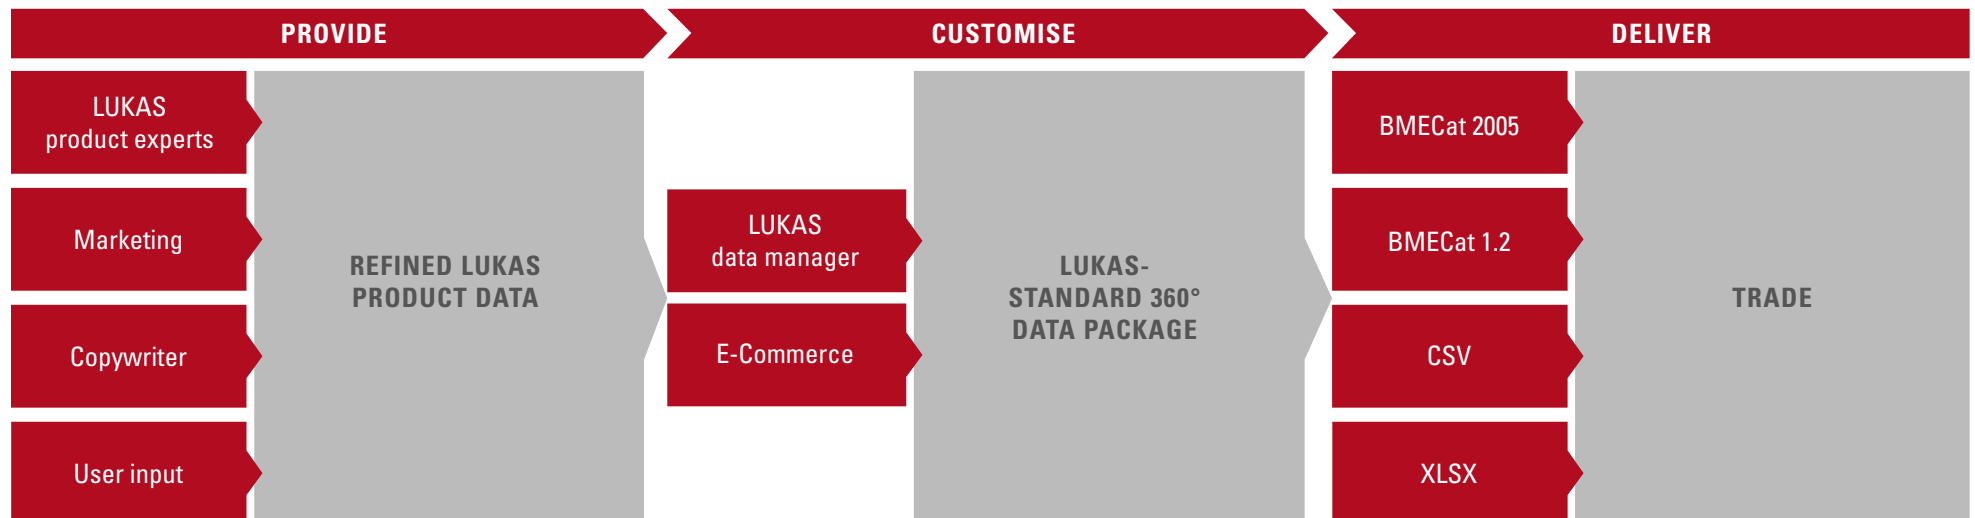

## UNLOCK YOUR FULL POTENTIAL

Sales through online platforms and shop systems have been rising for years in virtually all industries. It is therefore no surprise that these channels are increasingly being used to sell professional tools as well. Industrial customers in particular like to purchase products online, and this trend looks set to continue. Thus, it is not surprising that specialist retailers are increasingly focusing on selling through their own online shop or marketplaces.

Serving customers well and offering them a superior customer experience is all about providing the right data about products, services and potential applications. But this is often a painstaking process that requires expert and customer knowledge.

## UPGRADE YOUR WEB SHOP WITH THE LUKAS STANDARD 360° DATA PACKAGE

As a partner to retail, LUKAS always aims to make it easy for you to present our products in a modern way with the perfect amount of information. The free LUKAS Standard 360° data package gives you the latest information about all the items in the LUKAS catalogue ready for your online shop or product database, and with a level of information that only LUKAS can offer.

## Conditions

### CONDITIONS FOR RECEIVING DATA

1. Business relationship (offer from LUKAS)
2. Signed agreement on the use of LUKAS advertising material (provided by LUKAS)

## Contact

### REQUEST THE LUKAS STANDARD 360° DATA PACKAGE NOW

Would you like to find out how LUKAS' comprehensive product data can help you make your online platforms even better? Then get in touch with our data managers.

**Contact:**

Phone +49 (0) 2263 84-451  
OnlineService@lukas-erzett.de

## Example download

Use the QR code below to download a sample of our LUKAS data. The data is available in the standard formats such as BMECat 2005, BMECat 1.2, CSV and XLSX so that you can integrate it easily into your ERP, PIM or shop system.

### CUSTOMER TESTIMONIAL

"LUKAS understands what we as dealers need to present products online in a way that appeals to customers. Best of all, they do almost all the work for us. This makes it easier for us to generate more sales. In terms of data quality and scope, LUKAS is one of the best in the business."

**Dominik Marold,**  
strategic purchaser for REIDL GMBH & CO.  
and for construction machinery of the  
Beuthhauser Group, specialising in digitalisation and data management

ADDITIONAL DATA SHEETS

- Dank eines hochfesten Harzsystems ist dieses Werkzeug auch bei hohen Arbeitstemperaturen nicht. Zusätzlich sind bei der Herstellung auf Umweltschutz moderne Technologien mit kurzen Ausbrennzeiten genutzt.
- Die Stabilität des Werkzeugs ist mittels der LUKAS-Analyse, die im Träger eine höchste Sicherheit (kein Bruch) und kann so gut auch im Roboterbetrieb eine gute Wärmeabfuhr sorgt zudem für einen kalten Schliff und ein Nacharbeiten.

### LUKAS Schligffamenteller SLTT HybridPerfection Ø 125 mm Ceramicx Korn 40 | Flach

LUKAS-patentiertes Lamellenform mit innovatives Schleifritze für höchste Ergonomieerträge in härtesten Einsatz

Artikelnummer: A27201230400044

**Im Mehrwert**

- Höher und schneller Abtrag besonders auf gehärteten Oberflächen, Zunder, Hart-Beschichtungen und Panzerschweißnähten
- Kein Bruch des Werkzeuges dank robuster Stahlringstruktur
- Hohe Lebensdauer durch mehrlagigen Schleifbelag
- Kosteneffizienz durch optimale Ausnutzung des kompletten Schleifbelags dank speziell geformter Lamellen
- Zersetzt auch härteste Werkstoffe effizient
- Keine Einblendung dank optimierter Wärmeabfuhr, Weniger Nacharbeit nötig
- Innerer flacher Schleifring im Einsatz: Verschiebt, legt darunterliegende Lamellen frei
- Mehr Schleifen im Außenbereich für ein hohe Schlegelgeschwindigkeit
- Sicheres Arbeiten auch bei hohen Drehgeschwindigkeiten und Temperaturen dank spezieller Hartverlebung
- Hohe Härte und Schärfe für eine beeindruckende Lebensdauer
- Auch für den Roboterersatz bestens geeignet
- Mehr Leistung, höhere Abtragsgeschwindigkeit und bessere Oberflächengüteklasse mit einer Schüsselschabe
- Umweltschonend hergestellt mit moderner Harz-Ausblattechnologie
- Hohe Lebensdauer

**Vorteile**

- Gehärtete Oberflächen, verschleißfeste Stahl-, Zunder- und Hartschichten, Trennlegierungen sowie Panzerschweißnähte stellen kein Problem dar und lassen sich in kurzer Zeit bearbeiten
- Die Stabilität des Werkzeugs ist mittels der LUKAS-Analyse, die im Träger eine höchste Sicherheit (kein Bruch) und kann so gut auch im Roboterbetrieb genutzt werden. Die gute Wärmeabfuhr sorgt zudem für einen kalten Schliff und macht wenig Nacharbeit nötig
- Dank mehrlagigen Schleifbelag ist dieses Werkzeug immer so scharf, wie beim ersten Einsatz. Wenn die oberen Lamellen verschleifen, wird frischer Schleifbelag darunterliegende Lamellen freigelegt. So erreicht das Werkzeug eine hohe Lebensdauer und eine gleichbleibende Abtragsleistung
- Die flache Lage der optimal verbleibenden Schleiflamellen ermöglicht nicht nur eine erhöhte Arbeitssicherheit, sie schneidet auch den Verschleiß des Werkzeugs ein. Das Schleifen hat sich besonders fest in seiner Unterlage und wird optimal genutzt. Im Außenbereich des Werkzeugs befindet sich besonders viele Schleifritze, was zu einem besonders hohen Abtrag pro Minute führt. Ein hervorragender Abtrag ist garantiert
- Dank eines hochfesten Harzsystems ist dieses Werkzeug auch bei hohen Drehzahlen oder Arbeitstemperaturen nicht. Zusätzlich wird bei der Herstellung auf Umweltschutz geachtet und moderne Technologien mit kurzen Ausbrennzeiten genutzt
- Die Stabilität des Werkzeugs ist mittels der LUKAS-Analyse, die im Träger eine höchste Sicherheit (kein Bruch) und kann so gut auch im Roboterbetrieb genutzt werden. Die gute Wärmeabfuhr sorgt zudem für einen kalten Schliff und macht wenig Nacharbeit nötig

## PRODUCT DATA FROM LUKAS – AN UNBEATABLE BASIS FOR GREATER EFFICIENCY, SALES AND CUSTOMER LOYALTY

### ENGAGING PRODUCT COPY

Our texts are aimed directly at your customers. They explain the benefits, added value and special features of the respective product quickly and simply.

### TECHNICAL DRAWINGS – KNOW YOUR MEASUREMENTS

Judging the size of all kinds of tools from images can be difficult. That is why we created individual technical drawings for almost all of our products. We provide these to you so that your customers always know all the important measurements.

### MACHINE ICONS FOR TOOL USE

Our clear machine icons show customers the machines on which they can use the respective tool.

### CREATING CLARITY WITH THE LUKAS EVALUATION SYSTEM

We have organised our products into a single evaluation system with four clear criteria: work speed, service life, surface quality and handling/ergonomics. These criteria clearly illustrate the features of the respective LUKAS tool, allowing customers to judge for themselves which product is best for their goals and expectations. We provide our evaluation system as a .jpg file together with further informative product images, and you can easily integrate these in your shop.

# WHAT THE LUKAS DATA PACKAGE CAN OFFER YOU

## DESIGNED FOR ONLINE CUSTOMERS

Our data is specially designed and optimised for online shops. We collaborated with the leading online retailers and an innovative PIM provider to analyse and prepare the most important product data. This means we can offer the exact data that your target customers look for.

## THE FULL RANGE OF LUKAS PRODUCTS

Our current LUKAS Standard BMEcat contains a total of 3,500 items with excellent data quality. You are therefore certain to find something for your shop. We also keep these products in stock so that you can get even larger quantities delivered quickly.

### LUKAS-SALES

“Gain easy access to critical edge over the competition: For retailers, support in data provision such as one that LUKAS provides can be crucial for business success. Our modern and up-to-date data quality combined with

reliable support is already convincing our dealers and customers.”

**Timo Winter,**  
Sales Director at LUKAS

## HIGH-QUALITY INFORMATION DELIVERS GREATER SALES

The data from LUKAS makes your online store more user-friendly by giving customers the precise information they need. By combining engaging text with clear images and icons, it shows the most important information at a glance. This means that instead of looking for more information sources, your customer stays on your shop site and purchases the products they need there.

## LUKAS DATA CAN MAKE YOU FASTER AND MORE EFFICIENT

LUKAS offers uniquely comprehensive and informative product data that helps you generate more sales from your existing product range and grow into new markets quickly and easily. You can also benefit from cross-selling of accessories and associated products, thereby achieving greater margins.

## STANDARDISED FORMATS FOR QUICK SET-UP

The use of conventional formats (BMECat 2005, BMECat 1.2, CSV and XLSX) allows you to quickly incorporate the LUKAS Standard 360° data package into your ERP, PIM or online shop.

## HIGH DATA QUALITY HELPS YOU SAVE TIME

Thanks to the high quality of the LUKAS data, you no longer have to waste time on painstaking data cleansing and tasks such as creating product photos, technical drawings and texts.

# Comparing LUKAS data quality with the competition

## MASTER DATA

All of the product data that customers need when placing an order, including the product number, a brief description, a customs tariff number or the product's country of origin. Both LUKAS and the competition achieve similarly good values here.

## MEDIA

All product images (e.g. images of the product from different angles, images of the product in use, technical drawings or machine suitability). Just under a third of the possibilities are utilised by the competition. LUKAS provides you with all media.

## FEATURES

This category covers the various technical features, including the tool's shape and dimensions. Compared to the competition, LUKAS provides additional value in the features that are important for e-commerce, such as copy explaining added value and benefits, marketing claims and a clear evaluation system.

## ADDITIONAL INFORMATION

Additional information for a product includes data sheets, safety instructions, references and cross-selling information, for example. LUKAS provides virtually all possible additional information. By contrast, competitors place less value on this.

## NUMERICAL VALUE

Utilised possibilities of the individual categories in percentage (on average for a product).

LUKAS data quality for the LUKAS Standard 360° data package

# KNOWLEDGE TRANSFER FROM LUKAS

PRACTICAL TRAINING FROM LUKAS  
FOR DEALERS AND CUSTOMERS

GRINDING • POLISHING • MILLING • CUTTING • CUSTOMISED TOOLS

## CREATE VALUE FOR CUSTOMERS

Do you want to stay up to date with the latest developments, find out about new technologies and tool applications, or simply find inspiration? We can help you and our shared customers with our tailored tool seminars and training sessions, held either at our own technology centre with practice area or at a location of your choice.

During these events, we present the latest innovations, introduce you to new technologies and show you how to get the best from LUKAS tools. Alongside this, our design and application engineers offer individual expert advice to help you find solutions to your challenges. You can also put our products through their paces and see how they are produced.

Our experts will be happy to share their knowledge and experience with you. Simply choose the right seminar or training event from our constantly expanding selection or get in touch with us. We would be happy to tailor our training to your needs.

#### LUKAS DEALER TRAINING

## First-hand industry knowledge and the latest tool innovations

What do tool buyers expect today? How are the various products used? How can LUKAS' wide range of tools help users overcome challenges in different industries? What are the decisive factors and arguments that can influence purchasing decisions? Stay up to date and benefit from our expert knowledge in our dealer training events. You can also try out LUKAS tools yourself.

#### LUKAS USER TRAINING

## Find out how to get the most from LUKAS tools

Learn through a combination of theory and practice how to use LUKAS tools for best results. Discover what they have to offer and find out how you can master any task. Our experts will be happy to answer your questions, discuss your challenges and find solutions together with you.

WE WELCOME  
JUST UNDER

# TAKE ADVANTAGE OF THE LUKAS SERVICE FOR RETAILERS

## RETAIL TRADE SELECTION

As retailers, you know exactly what your customers want. Therefore you want to present and sell LUKAS products in a way that speaks to your customers.

We have just the right thing for you: the LUKAS presentation stand will help you boost your sales of industrial tools for cutting, milling, grinding and polishing for the long term.

### THE LUKAS DISPLAY WALL

Stable, self-supporting presentation stand with perforated panel. Assemble your own, customised display panel with hook hangers for Euro hole packaging, hook hangers for all products with a hole, a brochure dispenser for further information or suspended shelves for boxes to display products in a professional way.

### CARDBOARD COUNTER DISPLAY FOR CUTTING DISCS OR MOUNTED FLAP WHEELS

Presentation aid with quick assembly for presenting unique LUKAS mounted flap wheels or cutting and grinding discs on your sales counter. Available for tools with a diameter of 115 mm or 125 mm.

### COUNTER DISPLAY FOR TUNGSTEN CARBIDE BURRS

Lockable display for presentation and individual sale of valuable LUKAS tungsten carbide burrs with a 3 mm or 6 mm shank. Place it on your sales counter or shelves.

### OUR INDIVIDUAL PACKAGING

Eye-catching and informative individual packaging for the most popular LUKAS tools such as flap discs from the patented iQ series, tungsten carbide burrs, mounted flap wheels made of abrasive material, abrasive fleece or a combination of the two, as well as our mounted points selection for steel or inox. All of these are individually packaged and come with a Euro hole, available for your customised “display module” just like our cutting discs, diamond cutting discs, grinding discs and conventional flap discs, which you can simply hang on the display.

### CARBIDE BURRS

The popular carbide burrs Z42 Inox/Steel and ZX Universal in practical retail packaging.

Pages 328/329

### FLAP WHEELS

SFL, SFV and SFM flap wheels in retail packaging for a wide variety of applications. Pages 331/332

### DIAMOND CUTTING DISCS

The efficient diamond cutting disc for the construction site and the inexpensive option for cutting tiles in retail packaging. Page 333

### COUNTER DISPLAY, LOCKABLE

For the presentation and individual sale of LUKAS burrs. Place it on your sales counter or shelves.

Page 328

### OUR RETAIL TRADE SELECTION

### ADDITIONAL LUKAS PRODUCTS

This display wall is not only ideal for attractively presenting practical LUKAS retail trade products, many other LUKAS tools can also be displayed to advantage on the flexibly designed perforated stand. Select suitable products from the overview below and design your sales area the way you want.

### DISPLAY WALL

Appeal to customers directly with LUKAS products.

## 2-star cutting disc set

★★☆

The practical packaging for construction sites etc.

- cutting disc in metal box
- securely packaged
- protected from moisture

## 1-star cutting disc set

★☆☆

- for the presentation and individual sale of LUKAS carbide burrs with a 3 mm or 6 mm shank diameter
- lockable display
- also fits into shelves

## Counter display for tungsten carbide burrs

★★☆

- one burr for two materials: perfectly process steel and stainless steel with just a single tool
- in retail packaging
- high chip volume thanks to coarse cut for quick working
- faceted toothing for perfect surface results
- smooth running, low-vibration tool without chatter thanks to improved cutting angle

## Z42 Inox/Steel burr

★☆☆

- the all-round burr for universal use in retail packaging
- with cross cut for high performance

## ZX Universal burr

ZX Universal burr

## Ceramic mounted point assortment

- maximum aggressiveness and hardness with ceramic self-sharpening effect
- five different shapes for fast tool change in retail packaging
- impressive tool life
- higher and faster stock removal particularly on hardened surfaces, scale, hard coatings and armour steel welds

## Inox mounted point assortment

- for non-rusting steel
- 4 different shapes for fast tool changes, in specialist retail packaging
- excellent stock removal performance, also under adverse conditions

## Steel mounted point assortment

- top results with regular aluminium oxide, on structural steel, when rough grinding and finishing
- 5 different shapes for fast tool changes, in specialist retail packaging
- extremely hard and sharp for an impressively long tool life
- also machines hard materials efficiently

## SFL mounted flap wheels

- mounted flap wheels with abrasive cloth for manual use in retail packaging
- ideal for finishing, derusting, fettling, deburring, surface grinding, decorative finishing and bevelling
- impressive tool life working with various materials

## SFM mounted flap wheels

- flap wheels with regular aluminium oxide in retail packaging
- in a combination of abrasive fleece and cloth for a high stock removal performance
- suitable for cleaning, derusting, pre-finishing, graining and keying

## SFV mounted flap wheels

- flap wheels with regular aluminium oxide in retail packaging
- consisting of abrasive fleece flaps radially located around the hub of the tool
- ideal for matting, conditioning, polishing, finishing and fine surface finishing

# IDEAL FOR USE ON CONSTRUCTION SITES

LUKAS DIAMOND CUTTING  
DISCS FOR EFFICIENT USE

This diamond cutting disc for construction sites is coated with synthetic diamonds bonded with an innovative alloy. It enables universal cutting of the hardest materials at a high operating speed.
