PG EASY PURPLE GRAIN

COMPACT GRINDING DISCS

6
Sizes

- aggressive, durable, ergonomic
- integrated glass fibre-reinforced backing pad
- available in six sizes – up to 230 mm ø
- high stability and durability
- steady wearing with no overheating, embrittling or breakout
- innovative ceramic grain:
sharp to the finish

2 IN 1

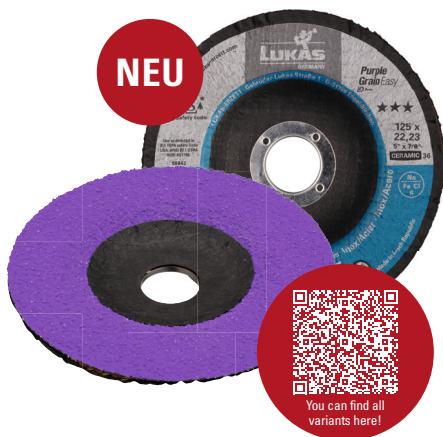

eliminates the need to switch between fibre discs and grinding discs

PG EASY PURPLE GRAIN

THE DYNAMIC ALL-ROUNDER FOR THE TOUGHEST TASKS

Even with just a little effort, PG Easy Purple Grain achieves stunning removal rates. The integrated glass fibre-reinforced backing pad ensures high stability and durability combined with working comfort: synchronism and aggressivity are optimised.

- The innovative PG tool design enables a steady wear with no overheating, embrittling or break-out, while the deep depressed centre allows working at a flat angle
- Thanks to its special tool geometry, the EASY compact grinding disc can also reach areas that are difficult to access, which offers more application possibilities than a conventional tool
- The single-piece abrasive surface offers many advantages. This results in less wear, optimised grain adhesion, a long tool life and fewer tool changes

Product number	Description	Grit size	D mm ø	Pack contains
A27611250361547	PG Easy 125	Purple Grain Ceramic 36	125	10
A27612300361547	PG Easy 230	Purple Grain Ceramic 36	230	10

Recommended for: ● Inox/Steel ● Steel ● Aluminium ● Titanium ● Cast material
